Grab a front seat for **SLIDE AMERICA**, a wild, up-close & personal, cross-country odyssey examining the fastest-growing motorsport in America – drifting!

Drifting is a gutsy new competition that brings a gonzo, X-Games mentality to a segment of the sporting world usually obsessed with *minimizing* risk while maximizing speed. Cars are modified to endure the extreme abuse of traveling sideways at a velocity that tempts catastrophe and the results are spectacular. **SLIDE AMERICA** focuses on the drifter way of life. Wild automotive mayhem plays out in parking lots, industrial parks and deserted roads all across America.

The soundtrack, ranging from electronica to speed metal to hip-hop, brilliantly complements the underground sensibility of a sport that is rapidly gaining mainstream appeal. **SLIDE AMERICA** presents an insider's perspective of a small but dedicated group of hard core motorheads and the exciting new motorsport that fuels their dreams.
